Introduction

Searching for a better way to protect your system without having to use 2-factor authentication or having other users to access with your passwords? Try using our Typing Habit Gesture Authentication System that provides you with another layer of security using your typing biometrics to recognize you.

Features

Sentence Generator

Generate a sentence for your input

Accuracy

How accurate our system is able to determine you against your typing biometrics

Words Per Minute (WPM)

Number of words you type per minute

Dwell Time

Time taken to press each key on the keyboard

Flight Time

Time taken from the down motion of one key to the other

System Requirements

Hardware

1. Any hardware that supports Windows Operating System
2. Any keyboard that does not have an issue with lag time between keyboard and computer system

Software

1. Google Chrome browser

Register

You may skip 'Register' guide if you have an account and head to 'Login'. (Page 5)

Click on the 'Register' button which will lead you to the registration page.

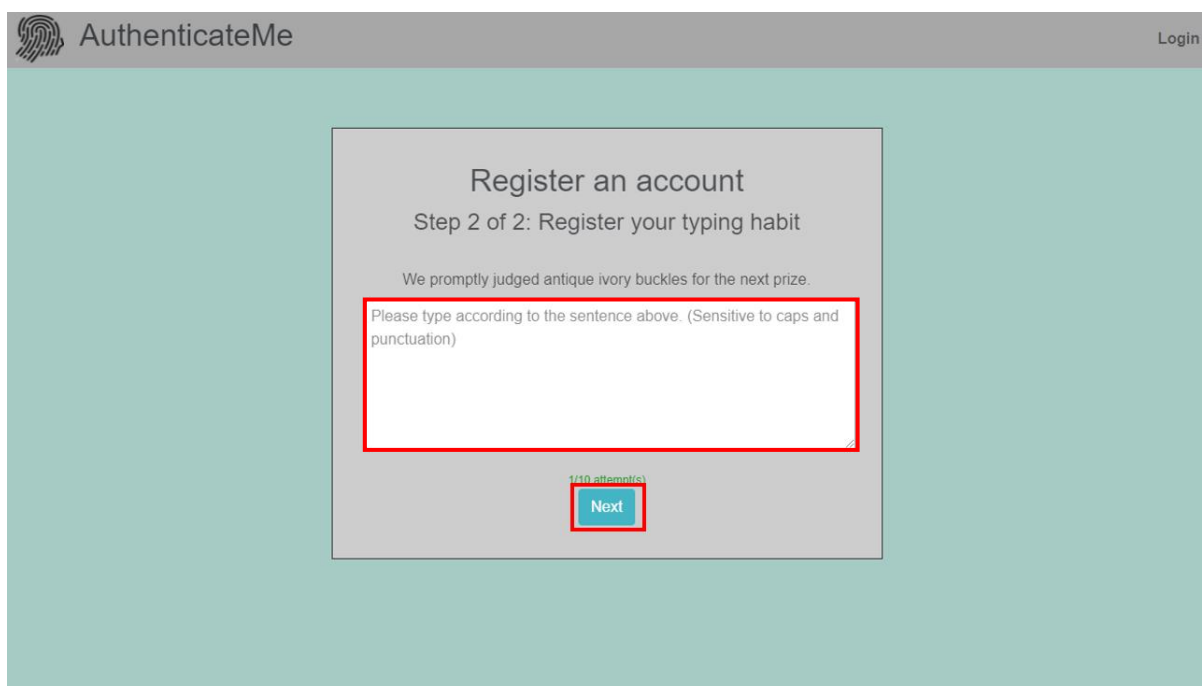

here to register if you are a new user!'." data-bbox="125 201 860 467"/>

Next, key in your particulars and click 'Next'.

here to log in instead if you have an account!'." data-bbox="125 518 860 885"/>

Once the system is able to verify your particulars, the system will require to register your typing biometrics. Key in the system generated sentence and click 'Next'. You will be required to repeat the process 10 times.

If you have made a mistake during your typing, you can use arrow keys or the mouse to navigate to the error and press the backspace button once for each character that you would like to remove. Do not hold the backspace button to remove 2 or more characters.

AuthenticateMe Login

Register an account

Step 2 of 2: Register your typing habit

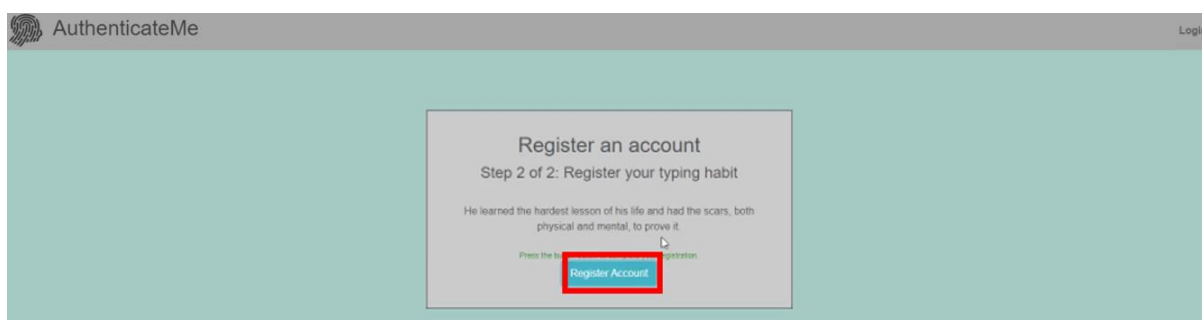

We promptly judged antique ivory buckles for the next prize.

Please type according to the sentence above. (Sensitive to caps and punctuation)

1/10 attempts

Next

After 10 times, the system prompts you to click on the 'Register Account' button to complete your registration.

AuthenticateMe Login

Register an account

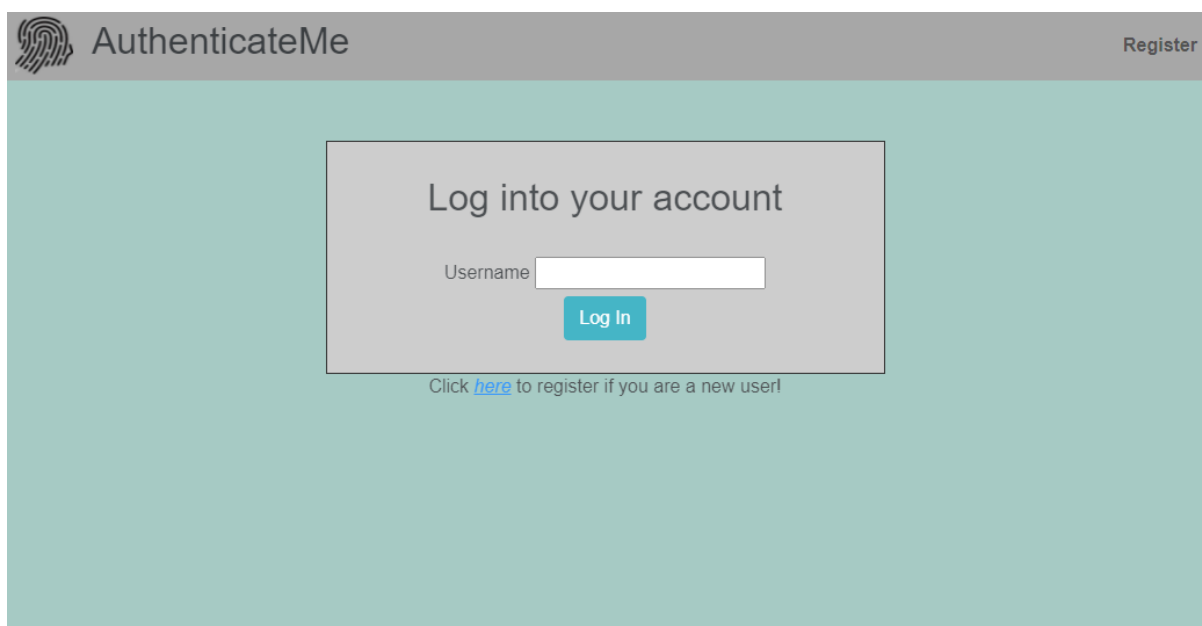

Step 2 of 2: Register your typing habit

He learned the hardest lesson of his life and had the scars, both physical and mental, to prove it.

10/10 attempts

Register Account

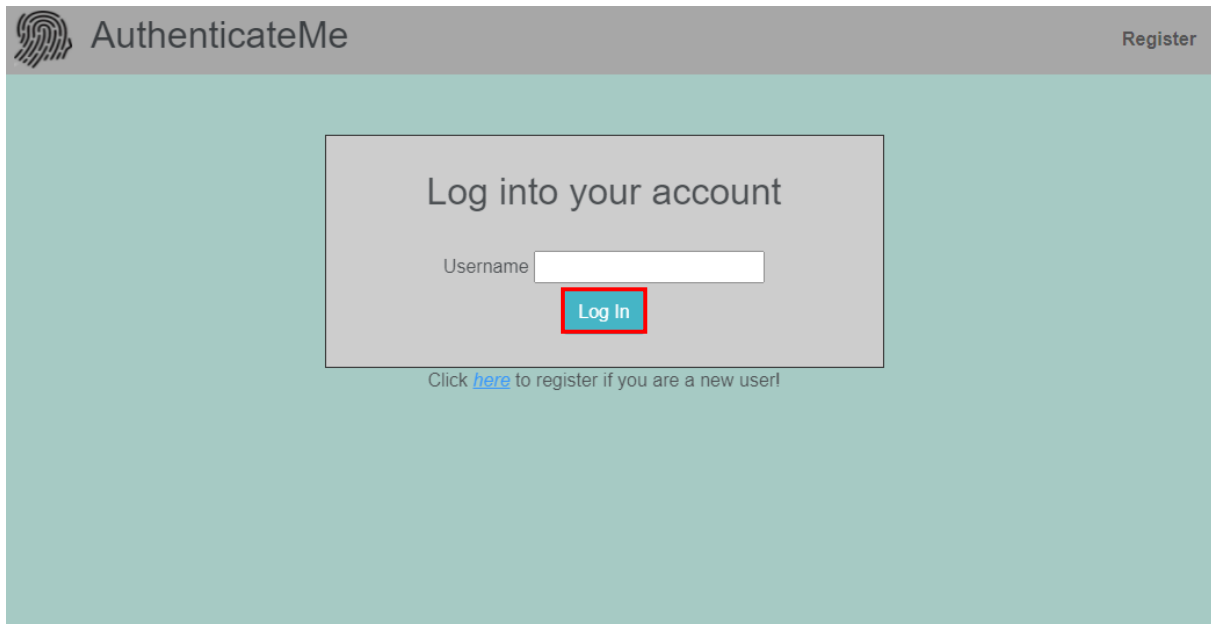

After the system is able to register you as our user, it will redirect you back to the Login page.

The screenshot shows the AuthenticateMe login interface. At the top, there is a dark grey header bar containing a fingerprint icon and the text 'AuthenticateMe' on the left, and a 'Register' link on the right. The main background is a light teal color. In the center, there is a light grey rectangular box with a thin black border. Inside this box, the text 'Log into your account' is displayed at the top. Below it, the label 'Username' is followed by a white text input field. Under the input field is a teal button with the text 'Log In'. Below the grey box, centered on the teal background, is the text 'Click [here](#) to register if you are a new user!'.

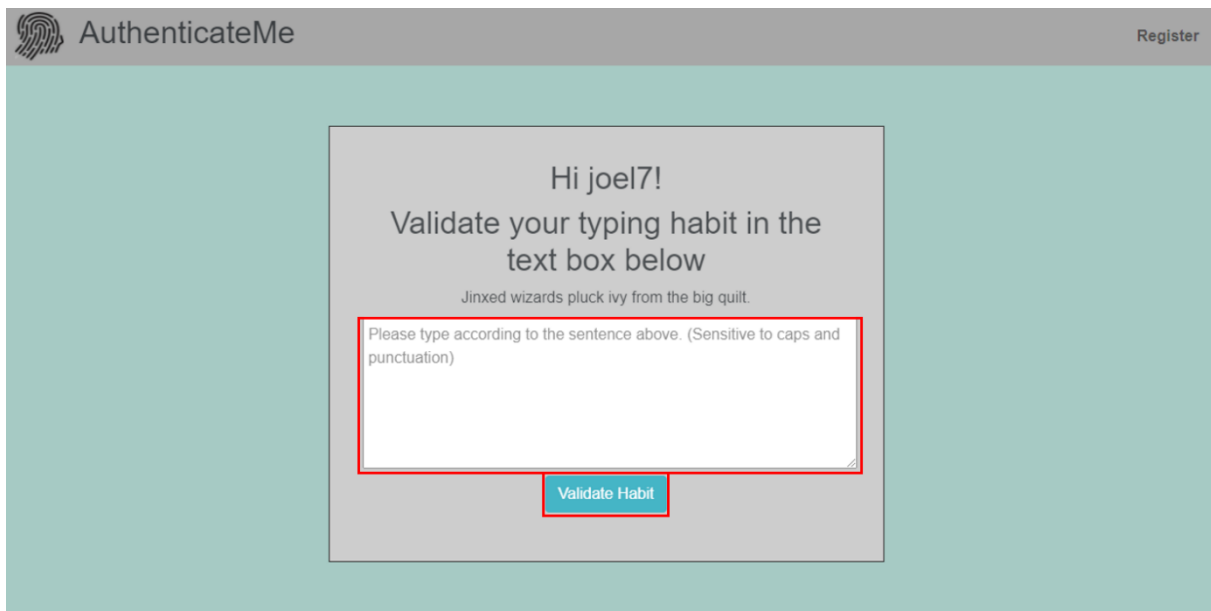

Login

Once you have entered the URL, the Login page will be displayed. Enter your username, and click 'Login'

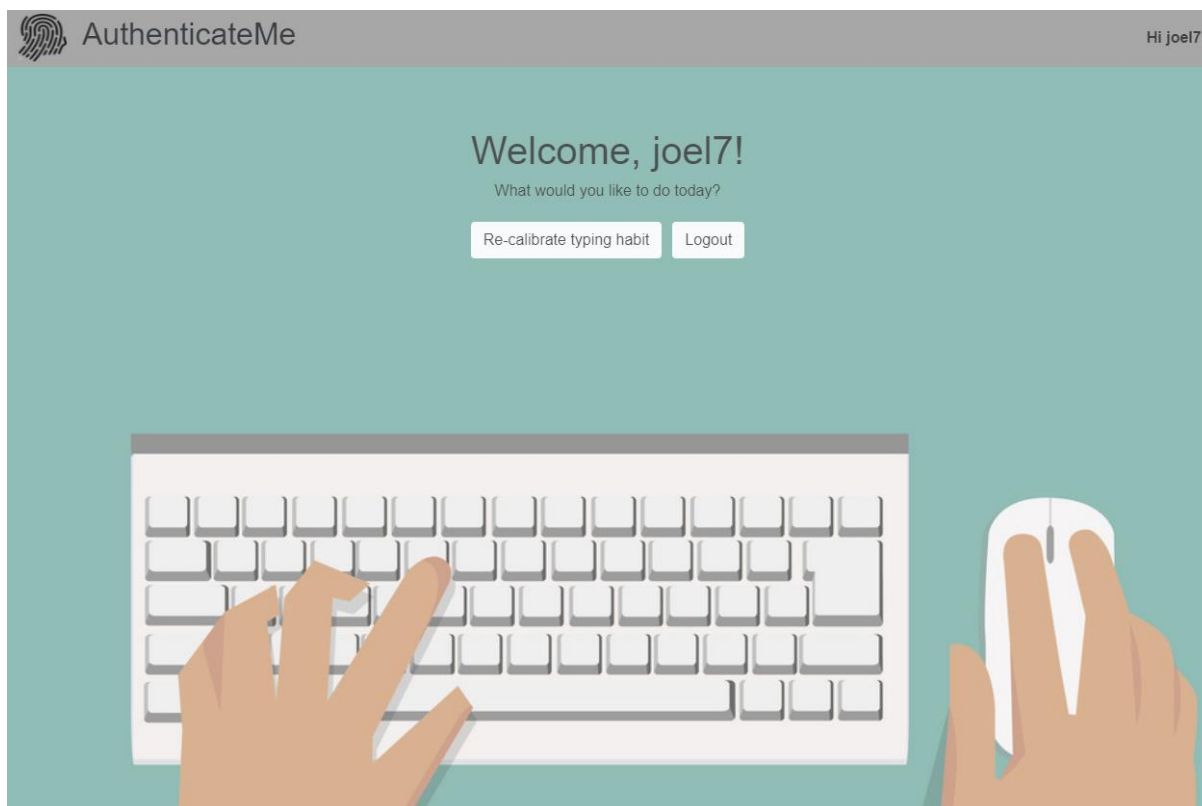

The screenshot shows the AuthenticateMe login page. At the top left is a fingerprint icon and the text "AuthenticateMe". At the top right is a "Register" link. The main content area has a light teal background. In the center is a white box with a gray border containing the text "Log into your account". Below this is a "Username" label followed by a white text input field. Below the input field is a blue "Log In" button with a red border. Below the button is a link that says "Click [here](#) to register if you are a new user!".

Next, typing the system generated sentence in the while box, and click 'Validate Habit'.

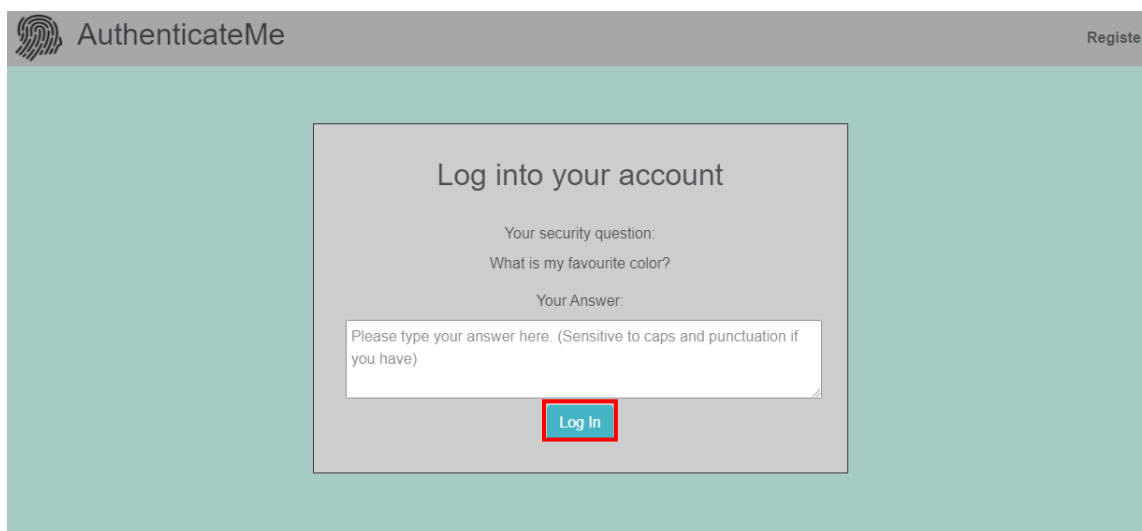

The screenshot shows the AuthenticateMe validation page. At the top left is a fingerprint icon and the text "AuthenticateMe". At the top right is a "Register" link. The main content area has a light teal background. In the center is a white box with a gray border. Inside the box, it says "Hi joel7!" followed by "Validate your typing habit in the text box below". Below this is a sentence: "Jinxed wizards pluck ivy from the big quilt." Below the sentence is a large white text input field with a red border. Above the input field is a note: "Please type according to the sentence above. (Sensitive to caps and punctuation)". Below the input field is a blue "Validate Habit" button with a red border.

Once our system has confirmed, you will be allowed to access into the system and user homepage will be displayed.

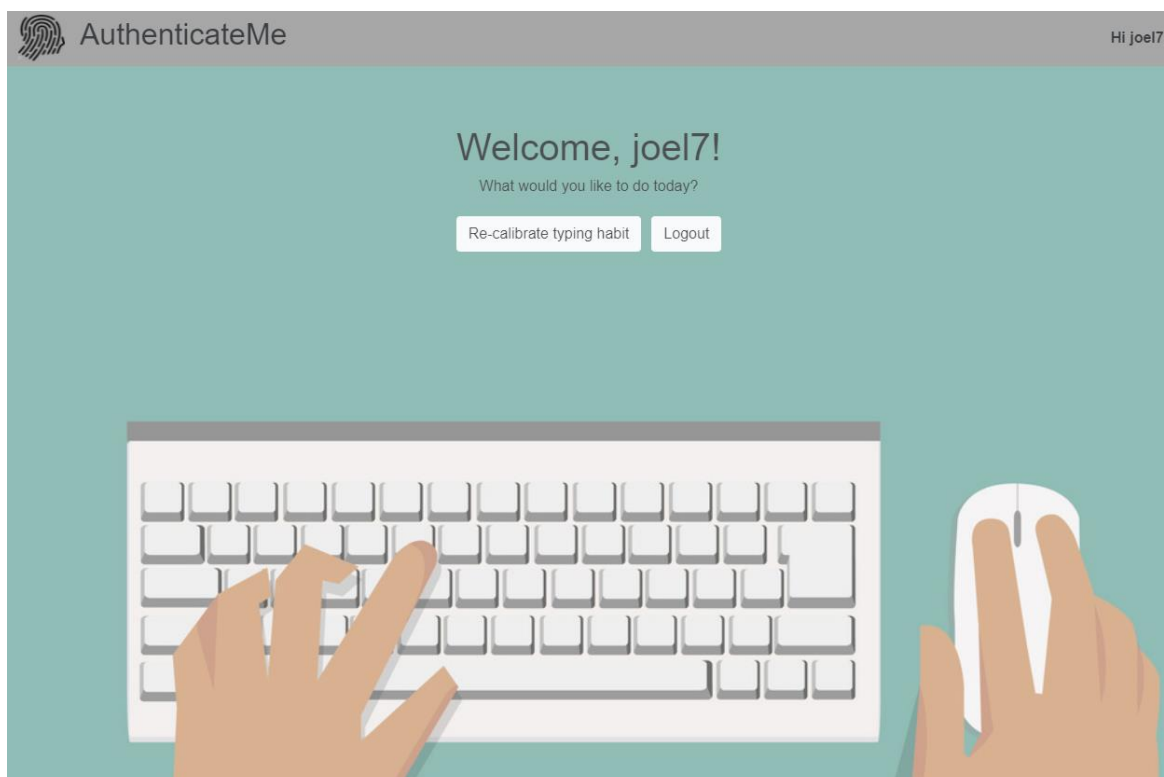

Security Question

Once you have failed your Typing Habit Authentication 3 times, you will be redirected to the Security Question Login page. Your security question will be displayed. Enter your answer, Case Sensitive and punctuation, and click 'Login'.

The screenshot shows the AuthenticateMe login interface. At the top left is the AuthenticateMe logo, and at the top right is a 'Register' link. The main content area has a light teal background. In the center, there is a white box with a grey border containing the following text: 'Log into your account', 'Your security question:', 'What is my favourite color?', 'Your Answer:', and a text input field with the placeholder text 'Please type your answer here. (Sensitive to caps and punctuation if you have)'. Below the input field is a blue 'Log In' button with a red border.

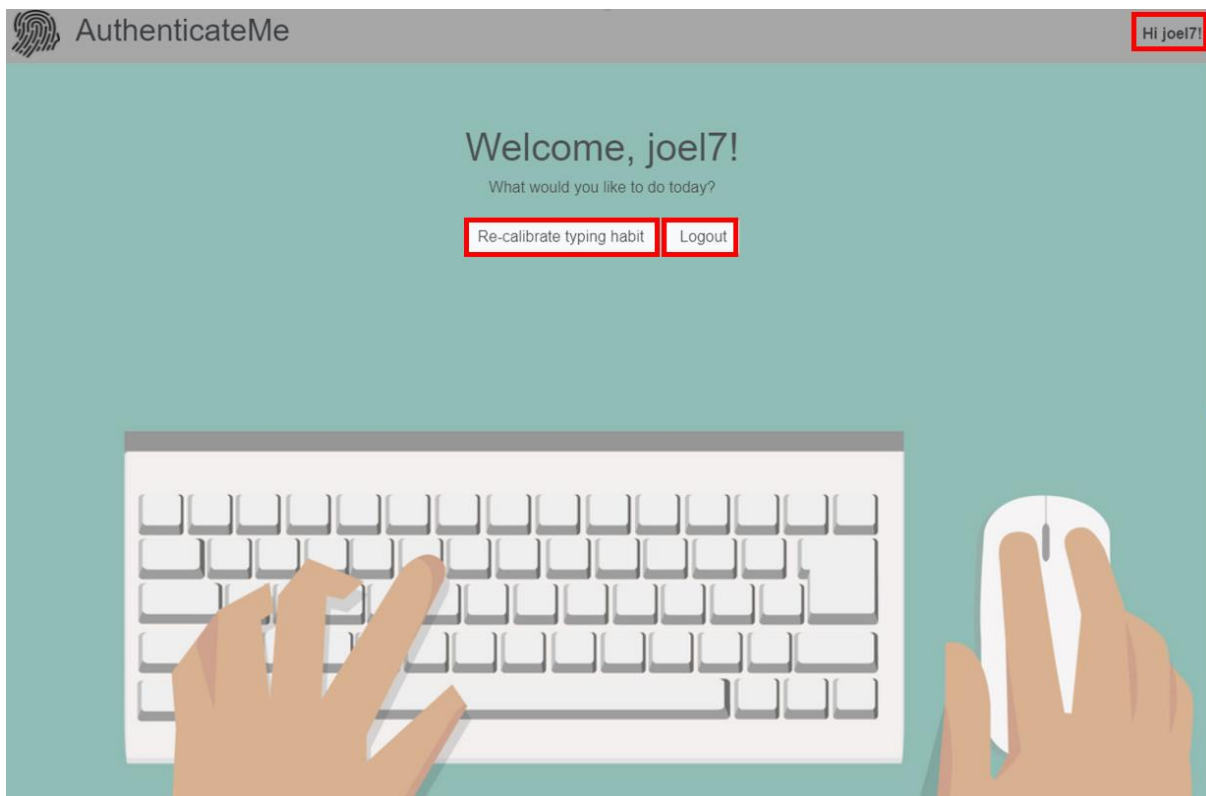

Once our system has confirmed, user will be allowed to access into the system and user homepage will be displayed.

Homepage

User Homepage

User Homepage will display a welcome message with the login username. The homepage also displays 2 functions – Recalibrate typing habit and Logout.

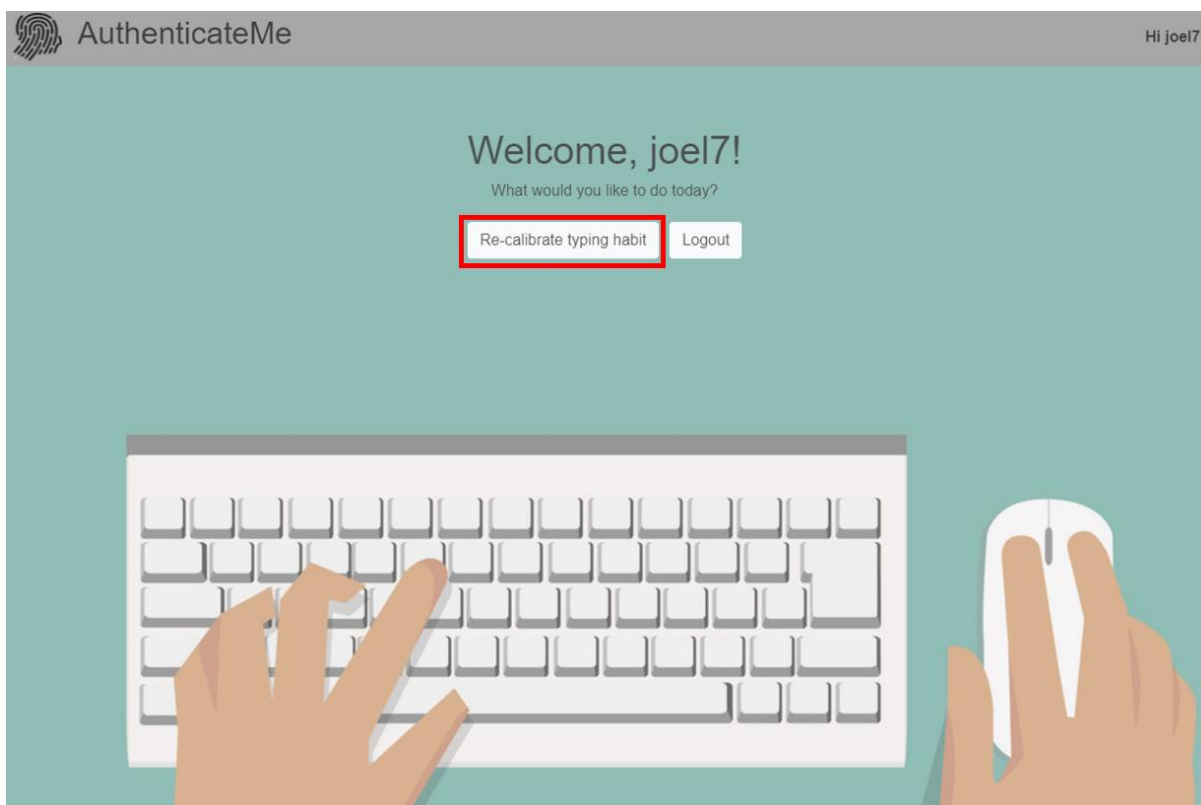

Functions:

1. Re-calibrating typing habit – Allows user to re-calibrate their typing habit
2. Logout – Allows user to exit AuthenticateMe system

Re-calibrations

You can recalibrate your typing biometrics by clicking on the ‘Re-calibrate typing habit’ icon at the homepage.

Next, key in the system generated sentence and click 'Next'. You will be required to repeat the process 10 times.

If you have made a mistake during your typing, you can use arrow keys or the mouse to navigate to the error and press the backspace button once for each character that you would like to remove. Do not hold the backspace button to remove 2 or more characters.

AuthenticateMe Hi ter4! Logout

Recalibration for your account

She couldn't decide if the glass was half empty or half full

Please type according to the sentence above. (Sensitive to caps and punctuation)

1/10 attempt(s)

Next

After 10 times, the system is prompt the user to click on the 'Register' button to complete their typing biometric re-calibration.

AuthenticateMe Hi ter4! Logout

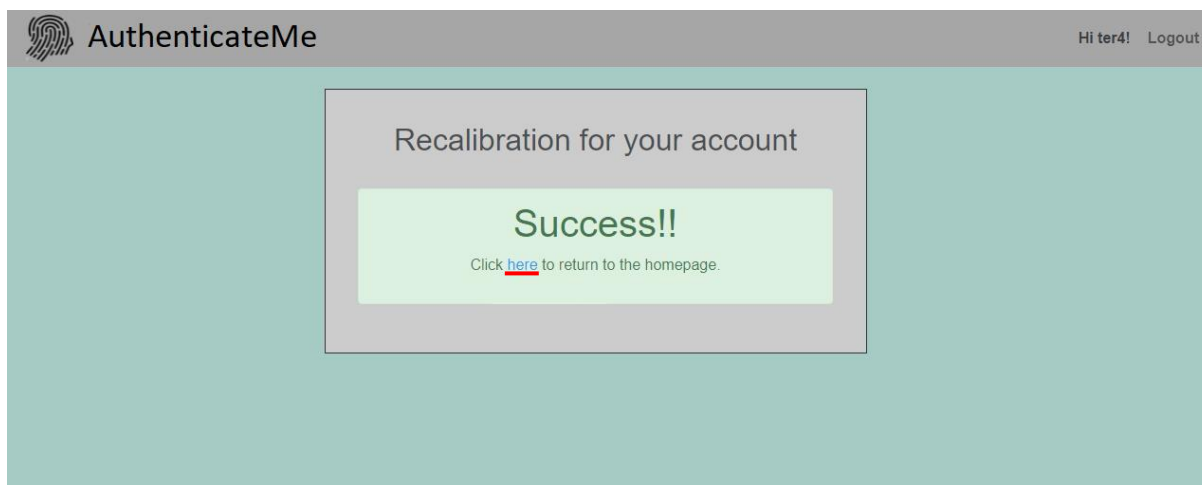

Recalibration for your account

She couldn't decide if the glass was half empty or half full.

Press the button below to complete your registration.

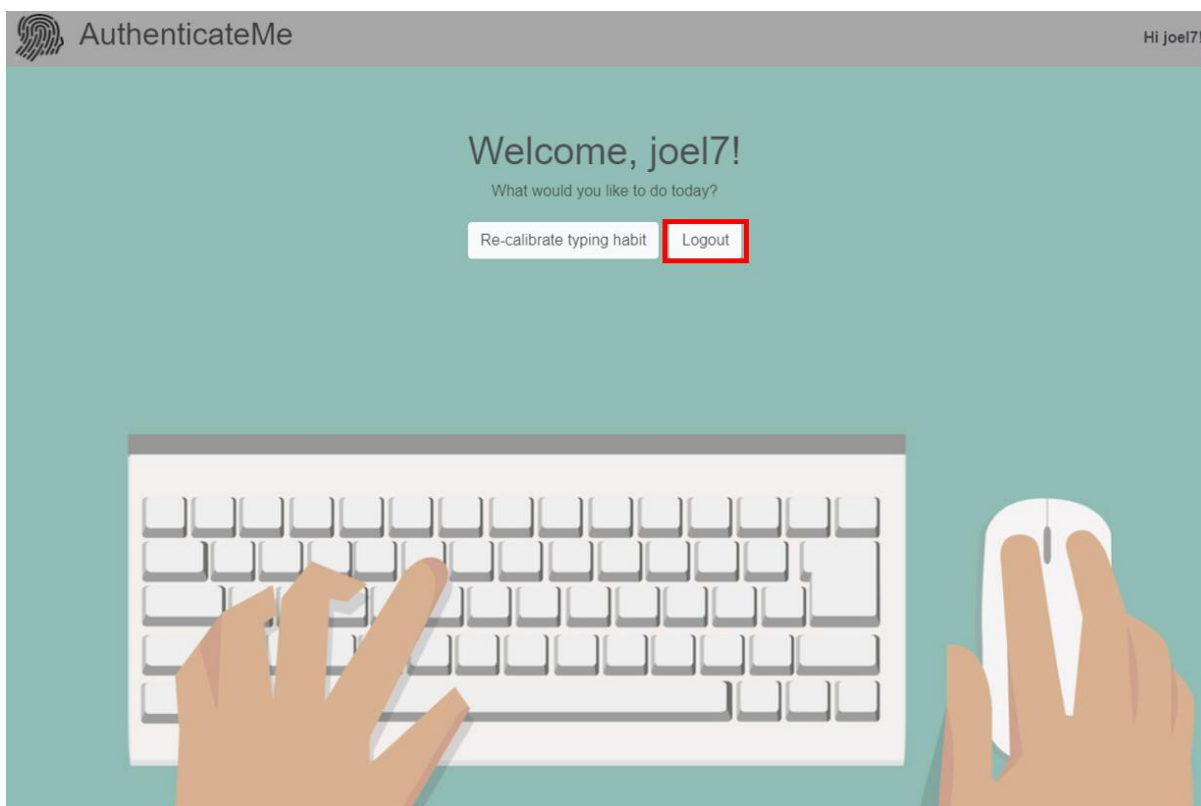

Register

After the system is able to recalibrate your typing biometrics, it will show a success message. Click 'here' and you can return to your homepage.

Logout

You can logout of your account by clicking by clicking on the 'Logout' icon at the homepage.

You have successfully logout when the logout page has been displayed.
